Cueni (Geneva); Prof. Sören Holm (Manchester & Oslo); Dr. Mohit Jain (San Rafael, CA); Christoph Glaetzer (New Brunswick, NJ); Dr. Kevin Haninger (Washington, DC), Dr. Ansgar Hebborn (Basel); Niklas Hedberg (Stockholm²); Dr. Gergö Merész (Budapest); Prof. Daniel Ollendorf (Boston, MA); Prof. Valesca Rétel (Rotterdam²); Prof. Maarten Postma (Groningen); Prof. Gérard de Pouvourville (Paris); Prof. Jeffrey Richardson (Melbourne, Vic); Prof. Michael Schlander (Heidelberg & Wiesbaden¹); Prof. Wendelin Schramm (Heilbronn²); Dr. Cees Smit (Amsterdam), Dr. Oriol Sola-Morales (Barcelona), Prof. Richard Sullivan (London)

¹Scientific Program Chair: ²invited

as at May 02, 2024 – may be subject to change & revision without notice

University of Heidelberg

THE HEIDELBERG HEALTH ECONOMICS SUMMER SCHOOL 2024

Interactive. Unique ratio of 2:1 between registered participants and faculty, allowing for interaction facilitated by workshops sessions, exercises, case studies, and roundtable debates

International. Health care policy makers around the world share many fundamental challenges with regard to financing, reimbursement, pricing and access issues, and the appropriate role of Health Technology Assessments (HTAs) including economic evaluation; accordingly, faculty and participants will be from the Americas, Australia, and Europe

Intense. Make no mistake w.r.t. the unparalleled intensity of the scientific program because of the scenic mountain environment and one day on top of the Kronplatz summit; however, we know that some faculty members and some participants plan to have their spouses accompanying them or to add a few days of private vacation once in South Tyrol

In-depth. Key topics (such as handling of OMPs, ATMPs, cancer combination treatments, medical devices, diagnostics and “precision medicine”) will be addressed from more than one perspective, bringing together experts from a variety of relevant backgrounds (including medical ethics, economics, clinical medicine, academia, HTA, and policy makers)

Impartial. The program will be strictly evidence-based and informed by the latest progress in health economics; a clear line will be drawn between facts and opinions, and there will be room for debate and critical review of popular arguments frequently brought forward in debates

Information. The Heidelberg Health Economics Summer Schools were inaugurated by our Institute in 2006; for a review and evaluation of the highly acclaimed programs, see [here](#). For further information, please feel free to contact us by =>[email](#)

Interested? The program will be most suitable for executives in senior commercial functions (CEOs and Business Unit Directors), market access, and health policy-makers concerned with HTAs and economic evaluation; it may also be of interest to advanced scholars in the field who wish to actively participate in shaping the future development of the regulatory environment w.r.t. patient access, financing, pricing, and reimbursement policies in the health care sector

To apply for registration, please follow this =>[link](#). Registration will be open until August 31, 2024. Discounts are available for people from academia and non-for-profit organizations
